# FISHERIES WORKING GROUP MEETING November 22, 2019 Vineyard Wind Update

Fisheries Surveys

Trawl

**Ventless Trap** 

Drop camera

**HMS** 

Monitoring review group

Fisheries Liaisons coordinating outreach efforts

Once a month – different ports

Shared website – mobile device friendly

Re-establish a working group through the FWG to standardize gear loss procedures

Radar study

| Species                  | Total Weight |  |  |  |  |
|--------------------------|--------------|--|--|--|--|
| Hake, Silver (Whiting)   | 2141         |  |  |  |  |
| Hake, Red                | 1924         |  |  |  |  |
| Skate, Winter            | 1880         |  |  |  |  |
| Skate, Little            | 1192         |  |  |  |  |
| Dogfish, Spiny           | 969          |  |  |  |  |
| Alewife                  | 862          |  |  |  |  |
| Butterfish               | 479          |  |  |  |  |
| Skate, Barndoor          | 355          |  |  |  |  |
| Dogfish, Smooth          | 312          |  |  |  |  |
| Monkfish                 | 213          |  |  |  |  |
| Mackeral, Atlantic       | 206          |  |  |  |  |
| Squid, Atlantic Long-fin | 189          |  |  |  |  |
| Haddock                  | 77           |  |  |  |  |
| Flounder, Fourspot       | 76           |  |  |  |  |
| Crab, Rock               | 49           |  |  |  |  |
| Winter (Blackback)       | 38           |  |  |  |  |
| Summer (Fluke)           | 33           |  |  |  |  |
| Menhaden, Atlantic       | 32           |  |  |  |  |
| Ocean Pout               | 29           |  |  |  |  |
| Squid, Short-fin         | 29           |  |  |  |  |
| Flounder, Yellowtail     | 11           |  |  |  |  |
| Shad, American           | 8            |  |  |  |  |
| Flounder, Gulfstream     | 8            |  |  |  |  |
| Sculpin, Longhorn        | 4            |  |  |  |  |
| Windowpane               | 2            |  |  |  |  |
| Herring, Atlantic        | 1            |  |  |  |  |
| Lobster, American        | 1            |  |  |  |  |
| Northern Sea Robin       | 1            |  |  |  |  |
| Cunner                   | 1            |  |  |  |  |
| Hake, Spotted            | 1            |  |  |  |  |

#### Fisheries Surveys – Trawl Survey 501N/S and 522

#### **RESULTS: VENTLESS TRAPS**

Total Lobsters: 351

- Control (n=214, 91.3 ±2.38mm)
- Impact (n=137, 90.8  $\pm$  2.15mm)

- 1.88:1 Male-Female sex ratio
  - 41% of females carrying eggs
- Lobster size breakdown:
  - Vented (n=196, 95.5  $\pm$  2.12mm
  - Ventless-(n=155, 85.1  $\pm$ 2.12mm

#### New England Aquarium

#### **Highly Migratory Species**

- Historical Data Mining for presence of HMS in MA/RI Wind Energy Area
- Surveying pelagic recreational community for fishing activity in MA/RI WEA

## Survey online until the end of November

https://www.onthewater.com/survey -for-south-of-the-vineyard-fishermen

### Fishermen Survey

- 150 respondents
  - Private angling permits (n=124)

Q2 What highly migratory species (HMS) do you target when fishing in these offshore areas? Please check all that apply.
